Miracle Class

Usa: Good evening everybody and welcome to our first Miracle Class. Akasha and Asun have promised that the radiation that is offered from the Presence of each of us, from the Higher Selves, the Great I AM Presence, the Angels, the Ascended Host that radiation will be imprinted on the recordings so that those who join with us in these Miracle Classes in their homes, they too will have the power of joining to receive those Miracles as well.

Walking us into our meditation, let us remember the words of the great Ascended Master Kuthumi who has said miracles are the natural way of living life, miracles can unfold daily when there's nothing in ourselves that can interfere with them. What interferes with miracles is that horrific energy of fear and doubt that got hold of all of us as a human race. We have the power to release by the Grace of God, we have that power through free choice and will to let go of that fear, to let go of doubt and let something more wonderful come in their place.

So let's take a deep breath together, and let's begin a gentle journey of acknowledging the Great Inner Light, the spiritual centre and power that abides within each of us, as together we visualize an Eternal Flame of Divine Love, an inner light that abides in the centre of the chest cavity. And together let us focus our attention there remembering that our energy always flows to that which we place our attention upon. Let each of us in our own unique way hold the silence for a few moments and quietly acknowledge that spiritual centre that is awakening within each of us that is the great heart centre.

“And together we call forth our Inner Light, our Inner Love, that Magic Flame within us to expand, releasing the radiance of its golden illumination and love throughout our being and out into our worlds.”

Visualize and feel that Sun's Presence of Light and Love in the chest cavity. Visualize and feel your Spiritual Centre responding to your loving acknowledgement and attention upon it. Imagine and visualize that Sun's Presence of Golden Light and Love expanding, rising as a wave into our minds, throughout our bodies, into the feeling side of life making each of us a glorious Sun's Presence of Life, of Light, of Love.

“And together we welcome as we acknowledge our Essential Self, the I AM that I AM that each of us are. It is in the name of that Great Presence I AM we welcome our Beloved Akasha and Asun who come to us ascended and free, and their authority of the Rose Pink Ray of Divine Love, Will and Grace that initiates these new Miracle Classes.

“And in preparation for their Presence with us tonight we welcome Angelic Presence and we call forth the blessed Angels of the Sacred Fire, the Cherubim, the Seraphim, the Angels of the Music of the Higher Spheres, the Angels of the Immortal Flames of All Christ Love. Blessed Angels enter into our gathering and into the homes of all who are choosing to face the Light and welcoming the way of Miracles into our lives.

“And so too we call forth and welcome the great outpouring from the Ascended Master Realms and those Ascended Masters who will project their All Christ Healing Love and Miracle Presence in each of these events. We welcome their Presence.

“And we are ready, and together let us enter the silence in anticipation of Akasha’s Presence with us, and that choice to release all limitation and welcome the action, the presence, the love, the magnificence of miracles as the natural way of living our lives on Earth.” Deep breath.

Akasha:

And let us take a deep breath together, and welcome precious hearts, welcome to our first Miracle Class together, and in the name of the Essential Self, the Great I AM that each of you are I ask each of you to make a conscious choice that even though you will be individually choosing to let go, you will be asked to individually make a conscious choice for miracles, I ask that you will realize that we call upon the power of the Essential Self of each of you to unite together and those who are listening in future time that as you choose this path of miracles you are joining with all of us.

And it is this choice that we make in these Miracle Classes that I call upon and I ask you to call upon the Holy Spirit, the feminine aspect of God, Goddess, All That Is that abides within your heart to be the Source of that joining, the Source of that union that we may together work with the momentum of many hearts and many minds who are seeking to be free of the collective consciousness of good and evil and open the way of the Divine Consciousness I AM that each of you are to unfold in your lives.

So may each of you in this moment choose to join with each one, choose inside your consciousness to join with each one in that choice to release all limitation from our lives, our worlds, including the cause of those limitations which may be born in the human mind, in the emotional body. And let each one choose that the Holy Spirit in your heart will be the Source of that union out of which the collective consciousness of the magnificent Christ Selves, the Souls of each of you working with the Holy Spirit can then unite with the Grace of God that comes upon you in this day as those Sacred Elements of the higher realms, the higher powers that most of human kind have fallen asleep to, the

Great Cosmic Light, the Miracle Love, the Sacred Fire, the gifts of the Angelic and Ascended Host. So as each of you make that decision now to choose the way of miracles and that miracles are the natural way of living your life when there is no longer anything left within you that could possibly interfere with them.

All of us, dear hearts, we all discover, no matter what realm and activity we live within, that when there is that which is within us a natural aspiration to reach up to the Greater, even if we do not know what that Greater is, there is always as we reach up for help, for assistance that which is the Greater that will take your hand and make you soar and rise. And how far you soar, how far you lift above the limitations of this world and yet stay in your magnificent bodies and do what you have come to do is absolutely up to you. Our universe is a magnificent place.

You have all been prepared for this moment. The great spark of love, the Flame of God that abides within every human heart whether humans know of this or not, has prepared you. Your Higher Selves have prepared you, and all the times that repeatedly and continuously you have come back into embodiment, even though you'd rather have a few centuries break from the suffering and the difficult way of living on Earth, continuously you have come back into embodiment preparing yourselves for that lifetime that you have died and died and died to live for.

You are prepared for this moment; your life, your Spirit, your Essential Self, the I AM that I AM that each of you are has prepared you for this moment of living a new and a natural way of life. The great polar nature of your being that is Light and Love is ready to emerge, and out of that emergence within you thou shalt know thyself in a whole new way; thou shalt rise and decree I AM with the feeling of such authority that the power and the majesty, the light and the love is present inside you to accomplish great triumphs and victories that stand ready as part of your life's purpose and the answer to a world that seems to be spinning out of control.

There is a dateline in the year 2012; there are many documents historic that have been written regarding 2012. There are moments in which these years of unity and healing and miracles lead all of you to the triumph in which every question you have dared to ask has been answered; *Who am I, what am I?* Yet not answered intellectually, answered experientially, owned and known by you so that the place that you live your life forward is so different. It is unknown to that which has been the life past.

As all of you have been prepared for this moment, so too has the messenger. You have all made sure to embody on this Earth at times in which those who have heard the pleas and calls of human kind have called for help and the call for help has drawn teachers, messengers, Angelic Beings who have taken human form, beings who come from other star systems who have taken on human form to guide humanity out of its suffering.

And so it is that one walked on the Earth some two thousand years ago. It is a time, for he has decreed it, for the fulfillment of his ministry. The awakening of all human kind, each is the Divine Sun of God; each individual is a glorious Sun's Presence of Life. Millions of years of exploring yourself, asking *Who Am I and what am I?* has drawn you through centuries of self-examination in which you have pulled yourselves apart, turned yourselves upside-down, and begun the great journey of putting yourselves back together. And that journey has won the moment in which by the Grace of God you are asked not to take one more step alone; you are asked to know that there are those who walked the

path ahead of you and know all that stands before you and their hands are stretching from heavens, from octaves, from stratospheres of Light, every Angel, every Ascended Being, every great being, every source of Light is commanded by the centre of the universe to respond to every call for help. Yet there must be a willingness, the use of your own free will to let go of anything in yourself that stands in the way for the Grace of God to be upon you.

Two thousand years ago a being names Jeshu ben Joseph walked upon the Earth and demonstrated the way of life that leads one back to Self. The records of his life have been manipulated by the sinister force that you might not understand the way he taught. Days before his ascension on the Hill of Bethany many of you who were embodiment at that time, he telepathically communicated with you and three days before his ascension he appeared before his mother, his Magdalene and his disciples. One by one each one went off for a walk with Jeshu knowing his departure from the world was imminent, and there he made a promise to each one. To Peter he said,

“Where many of you have served me you will gain your freedom in the ascension in centuries that come, you must remain in embodiment and keep coming back like everyone else. There will be a time, it will be known as the Seventh Golden Age, and in that embodiment you are to call to me. And my promise to you: I will come.”

Since that embodiment the disciple Peter has been on Earth many times. The Ascended Jesus Christ has called forth the attainment of the disciple Peter that has rested in the great causal body of the I AM Presence, and has created a finer body for that attainment to become active. And therefore this seat to the messenger’s left is reserved for the Presence of Peter whose attainment has been resting for two thousand years in the great causal body of God.

In the seat to the right of the messenger, this seat is reserved for the Ascended Jesus Christ. The promise that he made to Peter was that in this golden age which we are seventy-eight years into,

“Where I am called I will come, and when there are those who are willing to consciously surrender everything that limits their life and ask in its place my Ascended Jesus Christ Miracle Presence, I will come, I will respond and I will work with the Angelic and Ascended Host in the removal from your minds, your bodies, your feelings, your worlds, everything that limits you, its cause its effect its record and its memory; and in its place I will unfold my Ascended Jesus Christ Miracle Healing Presence.”

This is what is offered and he will not fail the call. Many others in these classes will begin to come as well. These Miracle Classes are set up as phases, levels. This is phase one, level one. They will continue through 2012. Each phase will go on for many, many months. Each time we gather in a Miracle Class, this is level one, next time will be level two, the following time level three, until it is time to move to phase two. In each level how many miracles unfold will depend on you.

“In the name of the Mighty I AM Presence that each of you are, in the name of the dispensation of the Rose Pink Ray to the Earth, in the name of the attainment of the disciple Peter who is on the Earth once again along with three other disciples, in the name of the Ascended Jesus Christ, in the name of the Buddha’s Presence that is

helping to open the inner chambers of your heart, in the name of the Goddess of Peace who governs your world this year, in the name of the Ascended Jesus Christ Miracle Presence, let the first Miracle unfold.”

Please make yourselves comfortable. Some of these miracles you may be familiar with and I am calling these forth again to make sure that any effects of something that has already been accomplished, that those effects are removed from your life. Therefore as this seventh golden age that is unfolding on the Earth, and this is the age in which human kind must rise and awaken to the Holy Flame that abides in their heart, this age is greeted by the love of the Violet Flame, for each one must know that it is Grace that allows something to be taken, and allows something greater, an action, an intelligence, a force which is a miracle unfolding. What is this Grace that can take from you what doesn't serve you and place a miracle intelligence and power in its place?

“The Grace of God is the Violet Flame. Therefore in the name of the Glorious Presence that abides within you, do I call forth the Grace of the Violet Flame to pass in through and around you to produce Miracle Number One. And may that Violet Flame as it passes through your being and your world, may the Grace of God, that Violet Consuming Flame remove from your being and your world every mistake you have ever made in this and any other lifetime you have ever lived, that you may dare to dream that this is a moment of freedom.

“May all karmic energy, may the effects of all mistakes that have ever been made in this and any other life you have lived and the record of those mistakes, may all of them, may all this energy –

“I call in the name of the Glorious I AM Presence in you, I call in the name of the Holy Spirit in your heart, I call in the name of the Mighty Saint Germain, the Violet Flame to the Earth, I call in the name of the Ascended Jesus Christ that the Violet Flame...”

Receive the Violet Flame; visualize and feel it, accept it, accept the Grace of God, the Violet

Flame to take from you, to take from the world all the energy of every mistake you have ever made in this and any other life that you have ever walked the Earth. Surrender those mistakes into the Violet Flame; surrender the karmic effect of mistakes of the past and present into the Violet Flame. Surrender; let the great essence of the Violet Flame pass through your minds, pass through your feelings, pass through the elements of your physical body. May rivers of the Violet Flame move out like a flood of Violet Flames that reach into all the activities of your life, your relationships, your past, every moment that you moved out of love, knowing love is the only thing that we are asked, it is the true

commandment; stay in love. And what is a mistake when those moments we have forgotten and we moved out of love;

“In the name of the Great Flame of God, in the name of the Inner Spiritual Centre and Sanctum within each of you, in the name of the Violet Flame that is the Grace of God be upon you, in the name of my Rose Pink Ray, Peter’s attainment and the Ascended Jesus Christ Miracle Presence, may a river of Violet Flames rise up at your feet, rising up through you and around you, and that Violet Flame take the effects, the record and the experience of all mistakes and their energy, and lift that out from you, lift it up and out of your world and every life you have lived, that by the glory of your free choice that you can stand in this moment and decree,

“By the Grace of God; by the Grace of the Violet Flame of God’s Heart that has passed through me and my world and that has passed through the etheric records of all lives I’ve lived, I AM free, I AM free, I AM free of every mistake I have ever made in this and any other life by the Grace of God upon me, and I stretch my arms up in my announcement to Life, I AM Free! And may the hands of the Angels and the Ascended Masters grab my fingertips and pull me into that freedom. Let me feel that freedom, let me feel the authority of this freedom to stand free as my palms now rest over my heart.

“Oh Lady Liberty, Goddess of Liberty fill our hearts with that freedom of liberty that we stand free to go forward, free to go forward. Together as one we accept the first miracle in our lives; we accept through the Grace of God, the Violet Flame, that passes through our being and all our world that the Violet Flame has taken every mistake from our beings and worlds, their cause, their effects, their record and memory.

“There is nothing in the past; it is for the now and the future that I live free and liberated by the Grace of God and I accept in my heart I am free of all karmic debt, I am free, I am free.” Please kiss your fingertips in prayer, hands in prayer position; kiss those fingertips, give it the kiss of your life, “I am free” Deep breath, and relax. By the Power and the Grace of God let the first miracle unfold in your lives. And relax.

Now I would like to in light of the other miracles, I wish to invoke and become active, I wish to reveal something to you that may alarm you, may startle you and that you might be just amazed. Clearly you can all understand the idea that there is energy inside you, yes? Presently every human being on Earth uses the energy inside their bodies, their minds, the human brain, the feeling side of life, to accomplish and manifest things in the outer world; every human being does it. It was never meant to be that way.

The energy inside you was intended to fuel all inner processes, to fuel the brain, to fuel the mental, the feeling side of life. However, due to what is called the fall from grace, in those centuries millions of years ago as human beings accepted the tree of knowledge of good and evil into their

consciousness, as duality became the choice of the human race, that great energy field that all of you used previously to manifest in the outer worlds collapsed.

In the first two and a half million years on Earth every human being had a magnificent storehouse of God's great energy, love, outside of their bodies, the personal atmosphere. This atmosphere was known as the Electronic Circle. Two and a half million years after the I AM Star Seed arrived, due to the acceptance of duality, good and evil, the disconnect from your own Higher Consciousness, the frame of this magnificent container that held the energy that you used to create in the outer world crystallized and burst. So for the first two and a half million years the energy that you used to accomplish anything in the outer world, that energy was always drawn from an incredible force field, a magnetic force field of love.

For this reason in the first two and a half million years your bodies never aged; the energy in your brain was not twelve to fourteen percent, the energy in your brain was 100%. The energy in your feeling body was overflowing, so the moment you used your attention and placed your attention upon any quality of life, your energy went to that quality and drew it forth into expression.

Many of you have come to us and said to us, I don't feel my passion, my joy. *With all the work, with all the healing and all the releasing I've done yet I don't feel those great qualities to life.* At that time we could not yet let you know because the time had not come. Yes you've cleared, yes you've healed, yes you've had many miracles. What you have not had is the rebound of your energy. If you want to feel passion, joy, there must be ample energy inside you so that as your attention turns to those things; remember, your energy always flows and amplifies what your attention is upon, yes?

So here is the great revelation: for twelve and a half million years human beings have been using the energy inside their bodies; you had to, you had no choice, to function in the outer world, when all along that energy was supposed to stay in your bodies, stay in your brain, your feeling and mental side of life, yes? Well by a great Grace of God as all of you are awakening and know that there is a vast spiritual centre within you, it matters not the path that you have walked that has drawn you back and is drawing you back to your Essential Self, matters not if it is the path of metaphysics, higher knowledge, the path of the Buddha, matters not the path that you walk as long as that path is bringing you back to your True Self.

Then it is that I announce to you today that not just this life, in all the lives that you've lived for thousands of years in putting yourself back together and collecting all fragmentation back together, and as you've opened to the blessings of your Higher Self and the spiritual centre that abides within you, by the Grace of God something magnificent has happened. The container upon which the great storehouse of God's energy builds outside of you, the great container outside of the human form that extends seven feet out and fourteen feet high, the container, the frame of what we call The Electronic Circle has been restored.

What does this mean to you? it means that every time you turn to Source whether that be the Holy Flame of God in your hearts, your Higher Selves, Angels, Ascended Beings, when you take moments to call upon the personal atmosphere outside of your body to be filled again with Love, The Magnetic Force, it won't be long before that storehouse of energy builds up and your thoughts, your decrees, your goals, your aspirations, your plans, rather than using the energy inside these bodies to

find manifestation in the outer worlds, everything that you conceive in your minds, the Light will use the energy that's building outside of your bodies again to manifest.

And I say to you the triumph is because all of you have separated yourselves enough from the collective consciousness. Now there is a magnetic force in the Earth's atmosphere, and you're living in a higher consciousness even though you are not yet at a level of perfect thoughts and feelings you are living in a Higher Consciousness, and it is your Higher Consciousness that has spoken to the Light. Your consciousness does not wish to use the magnetic force that's in the Earth's atmosphere in which your thoughts become things, because that magnetic force has the duality of the world in it and all of you are living in a higher consciousness, yes?

It is time for Miracle Number Two: the final removal of the tree of knowledge of good and evil from your consciousness that's the final removal of the effects that stops you, compels you to stop thinking in terms of good, bad, good, evil, and open to perfection, to the Light and Love of perfection; open to living your life beyond duality where what is the natural polar nature of your life, Light and Love can be the foundation from which your thoughts and feelings spring forth from.

Miracle Number Two; there is an old tree that abides in the garden of your consciousness. Your consciousness is the collective state of your mental and feeling side of life. Go in, see your consciousness as a garden and in the centre of that garden see an old withering tree, it is the tree of knowledge of good and evil that has hypnotized you into believing in that duality. See it as a withered old tree, hardly any life to it because of all the awakening that you have made. The tree that ought to be there is the Tree of Life, Life.

"In the name of the I AM that each of you are, in the name of the attainment of Peter and the Ascended Jesus Christ, in the name of the Holy Fire, the Grace of God, consciously choose;

"I choose to surrender, I choose to release, to let go of the tree of knowledge of good and evil, its impact, its effects upon my thoughts my feelings my world and my experience.

"In the name of the Ascended Jesus Christ and his Ascended Jesus Christ Miracle Presence, let the tree of knowledge of good and evil and all its effects be removed from my consciousness. I surrender it; I let it go that I may truly know my Essential Self I AM." Deep breath.

And visualize a mini, mini white tornado with blue lightening descending down around that tree of knowledge of good and evil and uprooting it from the garden of your consciousness, and taking that up and out of your world, and in its place see the Tree of Life, a magnificent tree. Whatever appears let it appear in the centre of your garden, a tree that is bearing rich fruit, abundantly, instantly. And affirm,

"I AM the Resurrection and the Life that has lifted up and out of me the tree of knowledge of good and evil.

“I AM the Resurrection and the Life of the Tree of Life and all its bounty that flourishes in my consciousness now. I accept, I accept, I accept this great miracle.” Deep breath.

The activity of Miracle Number One and Miracle Number Two is unfolding in your lives. Relax. In this great awakening of your lives all of you have come to understand that you have a Higher Mind; it's called the Christ Mind, the Christ Consciousness; it's called the Higher Mental Body and there is so much evidence that the Light of your Higher Mind somehow is getting through into your embodiment.

As you look into your eyes there is so much Light radiating from your eyes, the human mind, Light, the Higher Mind, the Christ Light that has never taken on duality.

The heart; the source of life to the body, and yet a mystery, a secret in the heart. In the deepest chambers of the heart there is a passageway as exists a passageway between your daily thinking mind and your Higher Mind, the Christ Mind, omniscience, Infinite Light. There is a passageway between the two minds. In the inner chamber of your heart which is a source of Love and Life to your body there is a secret passageway. That passageway takes you to the Greater Love, that Love is the Love of the Soul. Since December I've been encouraging each of you for the desire, the desire of your hearts to open and to allow the nurturing of the Divine Mother's Presence, the Soul, the greatest love of all to flow into your bodies and begin to push out from you everything that doesn't belong to you. Today by all the effort each of you have made to open every chamber of your heart and let the love, let the love flow, a power of love that the human has not trusted, a power of love that the human is afraid of because of the denial of that love.

Prepare yourself for Miracle Number Three that by the Grace of God that passageway between your daily mind and your Higher Mind be opened so that higher ideals, the omniscience of your Christ Mind, greater light can flow into your every day, that the passageway in the inner chamber of your heart that leads to your Soul where the greater love yet waits to find expression in your body.

You have heard your world yet has the magnificent manifestations of human beings who lived on the Earth, their works of such stature, such magnificence, such excellence that their works of art of music of architecture has withstood the time of winds and war. The great renaissance masters in which a brilliance and the power of love somehow was channelled into their work because a higher authority by the Grace of God over-lighted them and commanded that the passageway between the human mind and the Higher Mind be opened and the Light can flow. And the Grace of God was upon those ones' hearts that the passageway between the heart and the soul could be opened, allowing the greatest love of all, the Mother's Love that rests in the Soul, could find expression in their bodies, and yet all of that for one purpose, their life's work.

It is now your time, it is time to rise a knight, rise and let the renaissance master within each of you come forth; it is time to call forth the Ascended Ones who over-lit the Renaissance Period and let the Grace of their Presence and Power be upon you, and open wide that passageway between your daily thinking mind and your Christ Mind which is the Source of Pure Light and Omniscience. Let that passageway between your heart and your Soul be opened so that the Mother's Love, the greatest love

of all, Divine Love that does not know duality and imperfection, can flow through your hearts into your bodies.

Yet for you it is not to be directed into one segment of your life, it is to come forth for the right of each of you to fulfill the charge given to you when you were given life: Go forth and unleash the creative potential of your life and add to Life.

Miracle Number Three that by the hand, the Grace of God, the passageway between your daily thinking mind and your Higher Mind shall be opened, the passageway between your heart and your soul where there is the Sacred Womb of Life, Love, the Grace of Love in all its majesty, Love Divine that refuses recognition of the existence of anything outside of that, can begin to flow from the Soul through your hearts into your bodies.

Are you ready? Are you willing to consciously choose this? Then let us turn inwards. Visualization can be helpful. Take a deep breath...

Miracle Number Three; the passage between the daily thinking mind and the Higher Christ Mind to be opened, the passageway between your heart and your Soul to be opened. What will this do for you? It will allow the beautiful Light of the Father, of the Higher Mind to flow into your regular mind, your thinking mind that that Light and all the magnificent ideas of a new civilization may be experienced in your mind, that the inner chambers of your heart will open and receive the greatest love of all, the love that makes things happen.

And so in your mind visualize above you the most blazing golden horizon, or a golden lake, fields of golden light, endless, that represents your Christ Mind, your Higher Mind.

“Beloved Mighty I AM Presence of each of you, use the free choice and the will of each one for the passage between their minds and Higher Minds to be opened. Oh Holy Spirit in the hearts of each arise. Beloved Peter in all your attainment, as each one consciously chooses the passage between the daily mind and Christ Mind be opened, in the name of the Ascended Jesus Christ, by his Jesus Christ’ Miracle Presence let that passageway between your mind and your Higher Christ Mind be opened now. And let the Light of your Christ Consciousness flow into your thinking mind. Any visualization that comes to you, allow it to be.

“In the name of the Christ Presence as each of you align with your Higher Christ Consciousness, the Mind of the Father, the Light, let that Light flow, let that Light and all divine ideas and knowing and omniscience begin to flow like a river of golden light that flows into your minds.

“I accept the third miracle; I accept that the passage between my mind and my Christ Mind is open and I accept this passageway become wider, opening the way for the Christ Light of my Being to be present in all my thoughts. And I am grateful.”

“And the other part of Miracle Number Three; let the inner chambers of my heart of the Holy Spirit, the I AM that I AM, by the hand of the Ascended Jesus Christ’s Miracle Presence, by the assistance of the Mother, let the inner passageway of my heart open wide as I greet the greatest love of all, Divine Love that abides in my Soul.”

And imagine an atmosphere of pink love and imagine a passageway in your physical heart opening and a river of pink love flowing through your hearts and into your bodies.

“Beloved Master Jesus, Beloved Mother’s Presence, let the miracle of the Divine Passageway between the heart and soul, let that be opened now, and let the Pink Love of the Mother flow from the Soul of each into their hearts and into their bodies, the Mother’s Presence, Love that loves to fulfill, Love that nurtures your bodies, your minds, your feelings, Love that uplifts you.

“And I call upon the Mother’s Presence of the Ascended Master Mary to hold steady the opening of this passageway between your heart and your Soul and to hold that open until it remains open on its own. And may each of you inwardly welcome the Greatest Love of all that is stored in your Soul, welcome that Love to flow through the open passageway into your heart. See it as a river of Pink Love; see it flowing through that passageway into your heart, out from your heart, into your bodies and around you until it cocoons you, until you find yourself cocooned in the Pink Love of the Mother’s Presence.”

“Miracle Number Three; the passage between my mind and my Higher Mind, the Light, the Father Consciousness, is open. The Light of the Father Consciousness the Christ Mind flows every day into my thinking mind.

“The second part of Miracle Number Three, the Love of the Holy Mother’s Presence that is the Soul, the passageway between my heart and my Soul by an act of Grace of the Ascended Jesus Christ and his Miracle Presence upon you, the Sacred Fire, the Holy Spirit joining the passageway between my heart and my Soul is open, and that Greater Love that I shall see as Pink Love is flowing once again like a river of Pink Love through that passageway into my heart and my body, and expands out from me forming a cocooning nature around me. And that love from my Soul begins to fill the atmosphere around my body.

“I accept in my heart, my mind and my Soul that the passageway is open between my Higher Mind and my Higher Heart, the Soul, and therefore each day the Light of the Father from Higher Mind to my mind, the Love of the Mother from Soul into my heart is flowing, is flowing, is flowing. I accept this as the Grace of God upon me; I accept the help of the Angelic and the Ascended Host and the activity of the Third Miracle has begun.”

Form the hands in prayer, in gratitude, and give your fingertips the kiss of your Life, and accept the activity of the first three miracles level one is unfolding, deep breath, deep breath, deep breath.

Asun:

How playful you can approach the dimensional reality of time and space. And therefore it seems the heaviness that even miracles themselves require some time, some space, it is not so. You are all free will beings.

Truly, a miracle begins to unfold in your willingness to use whatever brings you to a place where you are finally done with some limitation in your life. And in that exasperation and frustration where you are finally done, it is in those moments that sometimes you use a negative quality in a positive way. Sometimes you just get so angry at yourself and so stubborn that *this which I've tried so hard to change in my life, it's just not acceptable*. Yes?

Miracle Number Four is your choice, Miracle Number Four in Level One asks each of you to choose something in your life that you would not like to have a part of you anymore. It could be an obstacle, it could be an experience in which you are seeking a different kind of experience. We will take that mighty phrase, *In the fullness of the Presence are the things that I desire, in the fullness of the Presence is the Love that I require*. And of course what is that Presence? That Presence is that magnificent spiritual centre within each of you that seeks to find full expression in you, through you and as you.

Centuries ago that spiritual centre, a sleeping giant, as it is in the mass of human kind who yet will give some power to some abstract God that decides what to do with the lot of you at the end of your lifetime; such religious hokey-pockeyness.

So let it be this day, *In the fullness of the Presence are the Miracles that I desire; in the fullness of the Presence is the Love that I require*. Love is the Power. It is not true, thoughts do not become things. It is only true in a Light Universe. This is a Life universe. Life is the unity. Those who seek embodiment in a Life universe are seeking mastery in every level of experience. They are welcoming, this is not a Father's universe, this is not a Mother's universe, both exist; this is the universe of I AM; this is the universe which started with one being who had become, if you will in human terms what would you say, androgynous, male and female. A being in all its unity became aware of itself in a space large enough to be a universe, and in cognisance of its existence, that glorious being decreed, *I AM. I AM here, I exist*.

And so it is the true nature of each of you, the offspring, all of us, the offspring of that Great I AM. You are Light, you are Love; all that you are seeks to come back together so that you can experience the Life that you are. Love is what makes things happen. Light is the mind, the Father; Love is the Mother, the spirit, the heart. Without the magnetic force of Love in this atmosphere that was built into this atmosphere after the planet was formed, if that magnetic force was not there this would be a holographic planet, lots of designs, logs of holograms and you could walk right through them.

This is a life planet. Thoughts don't become things, thoughts become thought-forms. Thought-forms become patterns of energy and if there's no love then those patterns of energy just float in the atmosphere because there's no substance out of which those energy patterns can become things. Love loves to fulfill itself, love is the energy that makes things happen, love is the force out of which thoughts become things. *That* is the truth, *that* is the secret revealed. Be aware of those in metaphysics who give you a half truth, they are as dangerous as the sinister force itself, yes? And so it is I welcome each of you to the realization that there is a magnetic force in the atmosphere in which your thoughts, your words, your decrees, your plans, are broadcast out and through your actions that magnetic force and the energy of your own system is used to create.

In these miracle classes much will be offered. Each one may be different, each one will be the next level, each one will have its own miracles. This all depends on you and it depends – we have designed it yet it is your will that ultimately will speak.

Miracle Number Four; there is something in your life; you'd rather be free of it, you would like something in its place. Choose now and choose wisely, and breathe. In a not so far distant future you will call me and I will come and if you consciously let go of something that has bothered you, limited you, diseased you. If you will consciously surrender it, and if you will admit it is your own creation or somehow have opened to its existence in your life, and use your free will to surrender it, and accept that you are reaching up by the Grace of God that I will come. And if you would have in place of what you are letting go of, if you will welcome my Ascended Jesus Christ Miracle Presence and if you will know the truth, *I and the Father are One*, in this case, the Father is the I AM Presence, the Higher Self of each of you.

He said, a time will come that you must consciously in your awakened state choose to surrender something that is acting in your life. You must take responsibility for it, whether you chose it yourself or you opened yourself for something to act in your life, you must make the choice to consciously surrender it, and in its place if you call me I will come, if you ask that in its place will come my Ascended Jesus Christ Miracle Presence, that is what will happen.

Now you can consciously choose to let go of something, and you can consciously choose something different and that is his Miracle Presence, you can consciously choose to be free of all the closed doors that somehow brings poverty and the lack of God's Great Supply. You can choose to be free of that and you can choose the abundance our Creator desires for all its children in the name of the Ascended Jesus Christ. You can choose to let something go, you can choose to have a healing of a relationship rather than keeping something in its present state. It doesn't matter what the miracle is, are you ready?

And then, I ask you like a gentle wind just visit your attention upon that which you wish to be free of. Acknowledge inwardly,

“Whether the cause of this situation is in myself and I created it, or whether it is something that I accepted that was out in the world and I let it into me makes no difference. I am choosing to let go of this situation; I am releasing it; I am entering into the art of true surrender. I am consciously choosing to let it go.

“And in its place I am conscious of what I am choosing and I know that my choice in its place I welcome the Ascended Jesus Christ Miracle Presence.”

Now if you know how you desire that Miracle Presence to unfold, name it inside you.

“I consciously surrender, I consciously surrender this situation out of my life, its cause, its effect, its record and its memory, and I call upon the Holy Spirit in me in the name of the I AM that I AM I surrender this situation from my being and world. And in its place I am consciously choosing a miracle. In its place I am welcoming the Ascended Jesus Christ’ Miracle Presence, and I accept.

“Beloved Master Jesus, you promised you would come if we consciously choose to surrender something in our lives that no longer honours us, and in its place we are choosing a miracle, in its place we are choosing your Ascended Jesus Christ Miracle Presence that will manifest itself as that which we are truly choosing as we release this situation from our lives.”

May the Holy Spirit, the Grace of God, the Sacred Fire, and the Ascended Jesus Christ Miracle Presence coming into your being and world, may it take from you...release, let it go. Let no part of you hold on to it, use your free will, consciously release this situation, its energy, its vibration, its cause, effect, record, memory, the experience of it, release it through the power of the Sacred Fire the hand of Grace, and welcome, welcome, welcome in its place the Ascended Jesus Christ Miracle Healing Presence. Deep breath. Miracle Number Four is underway.

For all of you because you’ve been prepared, because lifetimes are behind you in which you’ve chosen to be free of everything that denies and belittles life on this planet, and because you chose to return at this time and be part of the solution, the magnificent civilization that is coming forth.

Ultimately there is an awareness that must be faced. You all have a life in which you’ve faced yourselves and have tried your best, you’ve processed, you’ve released, you’ve been coached, mentored. You are in a new place yet in many ways the old world sticks hard to you. What is it that too often keeps things in place? What is it that keeps a world, a life that you truly desire from unfolding?

Yes there are the elementals of being human; what does that mean? It means you might yet be prone to human moments and in those moments once they're done you forgive yourself, you get yourself up, you dust yourself off, you keep going forward. And so ultimately, ultimately energetically vibrationally what is going on? What is it that is going on?

Behind the situations in your life you will each continue to mature, to awaken. So here I look at the larger picture, the detailed influences that affect your life experience. They're there; you put them in place for whatever pressure of mastery you placed on yourself. Yet the bigger picture of your life that sometimes doesn't allow you to be as successful as you'd like to be, sometimes when you feel very challenged in the things that you'd like to accomplish and be victorious in, sometimes in the places that you'd like to move into, yet there is difficulty.

Come with me behind the curtain and let us see what stands there, and let us see the 10% factor that is contributing, that is keeping you from the kind of triumphant successes you wish in your life and what could be. Let us know that there is a force called resistance, resistance that you all placed there yourselves. That force of resistance that is keeping you from being too successful too quickly because you chose to awaken, your spirituality not to be something that's done on Wednesday night or Sunday morning, your spirituality not to be a segment of your life; your spirituality to be that centre of your being, your consciousness out of which you live your life by and out from.

You have placed your own resistance to what you desire and require enough to keep you moving forward until you come to a place where you trust your life, where you know from the very depths of your being that it doesn't matter how many victories, triumphs, billions of dollars, accomplishments...

...your life in your outer world, nothing would ever cause you to fall asleep again, nothing would ever take you off the spiritual path because you know you are a spiritual being, nothing would allow you to come under the hypnotic spell and control of others.

Have you arrived there, have you arrived where you know, *I trust my life*. The resistance that acts in your lives is your own guarantee and insurance policy. It's like saying,

"I'm not going to let myself have it all until I know that I won't get lost by having it all again." Are you following this?

So as we look back in the bigger picture, and I'm not excusing, also I'm not forgetting that there are little things like limiting thoughts and limiting feelings that affect your day-to-day reality, I'm asking stand behind, come back with me into the vibration, the energetics, and are you willing to move into a new place, especially with karmic debt mistakes erased and your ability to stand forward free of mistakes. It is possible that you could have a new attitude that,

"In everything in my life 10% of it is resistance, that which I put there to keep me from being too successful too quickly because I want to make sure I don't lose myself in my success."

And here's the big breath coming. 90% of the rest of it, and I'll use slang to make my point, there ain't enough love for what you want to accomplish, for what you know you've come to do, and some of you it's so incredible what you've come to do that you don't even know what it is that you want because it's too big. So of all situations I'd like to move you to this place where you can say,

“Hey, energetically 10% of it is resistance; you know what is resisting here, why isn't this happening? Why isn't this moving into what I wish to create?”

Because you put in a vibration called resistance to make sure your successes wouldn't come too quickly until you knew you trusted yourself and your life. Makes sense? 90% of it is there just isn't enough love for what you have come to do in living your higher purpose, living the divine plan of your life and being part of the most intelligent new civilization that is coming on this Earth that will not have a foundation of hokey pokey mystical nonsense that asks you to believe in something outside of yourself.

This new civilization that is coming onto the Earth, 78 years in is based on the premise of Light, of Love, of Power, of Intelligence, everyone moving into the glory of their God being, and everyone contributing. We said in 1999 almost every month that year, go back to the records, Akasha and I stated that the changes that will occur between the year 2000 and 2012 will be hundreds and thousands of times greater than all the changes that occurred on the Earth between the industrial revolution and 1999 which brought about electricity, automobiles, and so forth. Yes?

So everything now is building. In this new awakened consciousness, your consciousness - it's like having a nice clean bath, you don't go back into your world as you leave your house there's a big ucky pool of mud like – *ooo I don't want to walk in that!* Your consciousness, you're living at a higher consciousness and it doesn't want to use the magnetic force. Now remember it's love, that's the power, it's the Magnetic Force, that's the energy in which your plans, your thoughts and goals become things. Problem – you're all living in a higher consciousness and that consciousness does not want to use the Magnetic Force that because you were given this planet free will you were allowed to qualify that Magnetic Force with duality.

So, there's not enough love, yes? So as quickly as there can be a miracle in your life that does what – that starts building the storehouse of God's great energy which is love in the atmosphere around your body so that everything, as your dreams, everything that you've come to do, rather than tapping the energy inside your brains and bodies out of which you function out in the world, the energy, the love in the storehouse, the Electronic Circle around you is the energy your thoughts and goals and plans and aspirations and decisions will use to be propelled into manifestation, yes? Miracle Number Five.

So Miracle Number Five depends on you accepting the Grace of God has already been upon your life and there's been a very silent force that has been doing something, and that has been the restoration of the crystal cup, the container, the Electronic Force Field that is called the Electronic Circle that surrounds the human body. We want you to be so clear; the energy that your thoughts, your goals, your decisions, the energy that it was supposed to use to create manifestation, to function in the

outer world, that energy was supposed to come from a storehouse of energy outside of your bodies. That storehouse collapsed when human kind fell from grace compelling human beings to use the energy inside their bodies to function in the outer world. This was the first cause of the body to start to age, because the energy that was intended to be in the body to maintain immortality, the energy that was intended to be in the brain to fire the neurons the protons and the electrons so that you could experience Higher Mind, all of that energy was tapped to function in the outer world.

So I want you to be very clear with these ideas. Light is the mind, the Father Consciousness. Love is the energy, the power in which your thoughts become things. If there is not that field of Love then nothing happens. You've all arrived at a place where your consciousness really doesn't want to use the magnetic force out there, why? Because it's spoiled and you know that the Angels have to yet, when human beings will allow it, clean up that magnetic force, and you've arrived at a time. So if you could move into that place,

“In all the situations, everything I want to create, everything that seems to be delaying and holding me back; 10% of it is resistance until I knew that I trusted my life.”

Do you trust your life? Do you know that nothing would ever put you to sleep again? Then use your power and release that resistance, release it into the Violet Flame; let it be taken, love that energy, don't deny it. Thank that energy for serving you and welcome – because the day is coming soon that you will use power in your hand to create things and you must know that you've never abused that power. Yes?

So that day has come and 90% of it is there's not enough love. What all of you have come to do, come to desire, come to be, come to accomplish – there has to be a lot more love power or energy to do those things. Can you not see that the systems of the world are crashing before your eyes? Can you not see that your world domestically, internationally, what is happening out there is changing right in front of you? Can you not see that everything we spoke of in terms of the real estate of the planet is increasing? Human beings are increasing the value of their Light and the real estate of this world, oil, homes, everything is reflecting that exactly as I shared with you in 1997.

Don't resist it. Everything's moving into a new place; every one of you has come to do something wonderful, but you're not going to use the old energy out there that holds people hypnotized. You want to use pure energy to accomplish what you see. This is why for years we asked you, and this is why Saint Germain came in 1929 and brought this picture so that human beings could see the Higher Self, that aspect of their Divinity, that human beings could see the necessity to call in the Light, the Sacred Fire, because what Saint Germain couldn't tell you at the time was your alignment with your Higher Self, with these powers and if many of them would use it and call it in it would help every human being to create an Electronic Circle.

So here is a frame that's been restored for you whether you knew it or not, a container. Now that container must be filled with God's great energy, it's your reservoir. It's your storehouse and as that starts being filled with love your thoughts your plans your dreams your goals your aspirations – because each of you are like a radio station constantly broadcasting, yes? And none of that becomes reality, that's the use of the mind, the Father Consciousness, for it to become tangible you've got to have power and energy, that's the love.

Oh my God, the insights, the epiphanies all of you are going to have! For you to see how easy it was for the sinister force to take control of human kind, just get them to deny love because if they deny love they're going to end up denying their own power system which puts their own power to sleep, right?

Ah, dear hearts, what miracle are we on? Miracle Number Five. There is resistance to our plans, our goals and aspirations, there is resistance that's keeping you from knowing what you want, what you've come to do. It's time to let that resistance go because you know you'd never abuse the greater powers that you're awakening to. You know you won't get hypnotized into the collective consciousness that destroys human life out there. You know you'd never abuse the greater powers that are going to come into your life.

It's time to let go of that resistance and it's time to realize with the speed of light action and manifestation, as everything comes crashing down out there, there are brilliant minds, scientists, bankers, investors, engineers, architects, musicians, literaturists, there are brilliant human beings who are constructive, and the Light will pour into them. And it is out of this and the new love that's coming onto the Earth that as you see old institutions and old archetype energies crashing before your eyes – and if you don't think they're crashing you need to turn the news on, Yes?

But here's the good news; don't get caught up in fear because there are brilliant minds on the Earth who will create new agreements, new contracts, new energy systems, new forms of banking, new forms of investment vehicles based upon the promise no one again will suffer on the backs of another human being's suffering; *that's* the difference, yes?

So for all this new world to happen, for you to know what you've come to do and know what you want, you've got to let go of the resistance because you can trust your life. And, you need a lot more power, you need a lot more energy and you've got to stop tapping – when you hear metaphysics and you hear that in the first two golden ages you lived in the body for thousands of years if you wanted to, maintained the age in the body that you wanted to, and you hear of these things, well my goodness metaphysics can be really darned irritating when you hear of all these things and can't prove it. Well my motto, dear hearts, is if you're going to prove it you've got to use it.

So Miracle Number Five: by the power of the Holy Spirit, by your willingness to let go of all energy that you placed in yourself that's resisting your efforts to be willing to let go of that resistance, and that the way be opened that you can start building layers of love into the atmosphere outside your body.

For triple times triple clarity, what I'm saying to you again, the container out of which a force field, a supply house of God's great energy, the container has been restored. Now it's time to start filling that force field around your body with Love; that's the Electronic Circle. When it is only 3% started to be filled with love your thoughts, your desires, your dreams will stop tapping the energy inside you, it will start using that forced field out of which to manifest. Within 33 days you will notice the most remarkable difference in your body, you won't feel tired at the end of the day, your body will feel a pressure as this love energy comes on it, your ability to feel any quality is so easy. Why? Because your energy systems are increasing. Why? Because the energy inside you is not being used to function in the outer world, to produce manifestation. Do you get it?

Miracle Number Five; let's go into the heart, open and be willing in your own words to acknowledge that whatever has held you back, whatever has kept you from moving, whatever the *I don't know's* are, whatever it is in which resistance has somehow been acting in your life, acknowledge that it is an energy that you placed; love that energy and say to that resistance;

"You have served me, it is time to go. I trust myself. I trust my life, I trust as more and more powers are placed in my hands to create and manifest a new world, I will never abuse that power. Nothing could put me back into the sleep.

"And therefore in the name of the I AM that I AM, the Holy Spirit and his promise he will come, the Ascended Jesus Christ's Miracle Presence; I call upon the Hand of Grace, the Sacred Fire to pass through my body, my mind, my feelings, and into that Sacred Fire I release all energy of resistance that has been acting in my being and world. I release that resistance. It has served me; I release it into the Holy Flame of God's Heart, and I AM free, I AM free; I trust my Life.

"I have discovered that there is to be a great storehouse of God's energy outside of my bodies. This is the Electronic Circle; I have discovered that the frame of this circle has been restored and I can now fill that circle with Love. And I know there are many Sources of that Love. My heart, my Soul is a Source of that Love, my Higher Self, the Presence is a Source of that Love, Angels and Ascended Ones.

"And so by the Hand of Grace of God and the Sacred Fire upon me I release the energy of resistance; I bless that energy and I release it into the Sacred Fire that returns it to the universal.

"And as I acknowledge this great force field around me it is my free will and I call upon the Ascended Jesus Christ, the Great Goddesses, the Seraphim, the Cherubim to assist me in filling this container, this Electronic Circle outside of me, with Love, Divine Love. From out of my heart I call rivers of Love to flow from my Soul, from the I AM Presence, the Higher Self. I turn my attention to the Angels, the Ascended Realms and I call forth the projection of love rays, Ascended Master Love Rays into the atmosphere around my body where the restoration of God's Great Energy, Love, begins to build up once again."

Visualize and feel hundreds of Pink Love Rays, White Love Rays, descending from above, pouring into the atmosphere around your body, and visualize that container as it extends seven feet out from you in every direction, and rises fourteen feet high, visualize as the great White and Pink Love Rays pour in. give yourself a visualization; see that container being slowly filled with white or pink love, this is Divine Love, this is your storehouse of God's Great Energy out of which in the future you can accomplish everything you desire. Open dear hearts;

"Mighty I AM Presence of each of you, beloved Holy Spirit within your hearts, Beloved Mother Akasha and your Rose Pink Ray, Great Goddesses of Love, blessed Mary and Mary, Beloved Quan Yin, Great Beings of Love, we open our arms wide to you and the

understanding there must be more love in our lives; we open our arms wide and upwards and we welcome, we use our free will and we call forth oceans of your Divine Love, Angelic Love, the Love of the Ascended Ones, Great Beings of Light and Love; focus and drench and saturate the atmosphere outside of our bodies, out to seven feet, up to fourteen feet, with your Great Ascended Master Love Rays. Fill us and help each of us every day to fill these great containers with God's Great Storehouse of Energy."

Palms upon the heart in gratitude;

"We thank you, we thank you, we thank you and we accept we have used our free will; we have called forth the Great Love Rays from our hearts, our Higher Selves, from Angels and Ascended Ones; we turn to the Physical Sun and the great beings who offer Light and Love from the Sun, Mighty Vesta we reach through you to the Divine Mother of the Great Central Sun of our universe. Great Forces of Love we open our hearts our souls and we recognize what a time of change is upon us by a miracle, the great container upon which God's great energy, the Mother's energy, the love is stored, has been restored.

"And every day we will call upon the Miracle of Love from our Presence, from Source, from the Angelic and Ascended Realms; come and fill our Electronic Circles, come and fill the atmosphere around our bodies with so much Divine Love so that quickly it is that love, it is that power, it is that energy out of which our thoughts our goals our dreams our hopes our aspirations our choices our decisions, as they are broadcast it is that storehouse of Love outside of our bodies that brings all of that into manifestation, thus allowing the energy, the life force that comes from our Presence to start building up within our bodies once again. I accept the Fifth Miracle.

"By the hand of God all resistance that I have placed in my own being is removed by the Sacred Fire. By the Grace of God, the great container, the Electronic Circle has been restored, and now I can use my free will every day to turn to every Source of Love and in the name of the Ascended Jesus Christ and his Miracle Presence upon me may that great storehouse of God's Great Energy Love be filled in the atmosphere outside of my body, all around me, out of which my thoughts, my dreams, become reality.

"I accept the full activity of Miracle Number Five unfolding in my life."

Miracles are the natural way of living life. Let this truth be upon you. Five miracles have become active in you; may you command the Light of God that never fails to take all doubt from your Being that nothing can interfere with the unfoldment of the first five miracles of level one. Deep breath. May the blessings of your life be such a bounty.

I AM the Resurrection and the Life of instantaneous healing and miracles unfolding in each of you and your life. You stand free, and if there is that which causes your attention to be drawn to the past, reach up to Lady Liberty, reach to the Goddess of Liberty for she represents your freedom from all

that has ever limited you, and ask her to slam the door shut on the past and help you live in the present to love your life and live forward.

Miracles are the natural way of living life. In every Miracle Class another set of miracles, another level; they will continue to unfold in your lives. May the blessing of your life and all its bounty be a rich blessing of happiness and hopefulness in a world where there seems to be so much despair. May the power of the Grace of your Life for every one you meet and contact each day, I decree that the power of these miracles in your life that as your life comes in contact with others that God in you will be quick to reach out to another and to transform what seems to be hopelessness into hopefulness.

It is a time for love; love is the Source of these miracles. What will love do now? In the next Miracle Class ask love, ask love how it seeks to be active in the next group of miracles.

Akasha and I love each of you dearly; may you love your life whole, and in the old language we leave you namaste, namaste, namaste.

Remember dear hearts you are never asked to believe, not once have either of us asked you to believe, we only ask you to accept, to accept long enough so that the miracle can take hold.

~...~
