Usa, Akasha and Asun

MC1005 Lord Maitreya

1 - Akasha:

Good evening everybody and welcome to Akasha and Asun's Miracle Class.

Let's take a deep breath together...perhaps you have in your hands a sheet of invocations, a wonderful gift of the Ascended Master teachings as they remind us all the time to pour our love to our own Beloved Presence individualized of Mother/Father God, to pour our love to the Angels, to the Great Ascended Masters and the Great Cosmic Beings. And then once we pour our love, to find our voice and to speak these great commands that they have given us that speak of the great powers of our I AM Presence, the Ascended, the Angelic Host and to remember that when we are giving voice to these beautiful Commands to Life that it is our energy that is pouring through our voice and our energy takes these wonderful Commands to Life up; our Higher Mental body receives them, takes them to our Presence and to the Ascended Master Realms where the Great Beings respond to our call. So let's begin by just asking each one to turn within and let's have one minute of silence where each one pours their love to their Presence, to your Divine Nature and to God in any way that is most perfect for you. Let's do that together...

And as we have offered our love to our Beloved Presence, the Great Ones, the Ascended and Angelic Host, we call upon them to take up our call and bring forth the fulfillment of all that we call forth now made manifest in our beings and worlds. And so let's begin together, periodically as we go through the sheet I'll just quickly ask us to pause, take a deep breath, and then we will continue.

"And so to our Beloved I AM Presence, to all the Ascended and Angelic Host, we are so grateful for your Love, we are so grateful for answering our calls," together;

Charge my mind with your All-Christ Consciousness, (x3) Almighty I AM, (x3)

Flood my feelings with Divine Will in Action (x3) Almighty I AM (x3)

Surge your All-Christ Light through my nerves today (x3) Almighty I AM (x3)

The Resurrection and the Life I AM now and forever (x3) Almighty I AM (x3)

I AM an open door, I step through that door into my All-Christ Being today and forever (x3) Almighty I AM (x3) Deep breath. And try to feel that as you're giving voice to these beautiful calls that you're also open and receiving the instantaneous fulfillment of them. Together,

"I AM the Sacred Fire Flames of Redemption pouring in through and out from me (x3) Almighty I AM.

My mind and body is a temple of the Most High I AM (x3) Almighty I AM (x3)

I AM a Commanding Presence of Light and Love the sacred union of mind and heart (x3) Almighty I AM (x3)

I AM my Sacred Fire Flames Mastery unlimited raising all into perfection now (x3) Almighty I AM (x3)

I AM the Ascended Jesus Christ Resurrection and the Life of my being and world now (x3) Almighty I AM (x3) Deep breath. Together,

"I AM the All-Christ Sacred Fire Healing surging through and out from me (x3) Almighty I AM (x3)

I AM a Miracle Mantle of Love's Sacred Fire Healing (x3) again,

I AM a Miracle Mantle of Love's Sacred Fire Healing, (x3) again,

I AM a Miracle Mantle of Love's Sacred Fire Healing, (x3) Almighty I AM (x3) Deep breath.

As I said in the last Miracle Class I've a feeling more of this is coming and I have a feeling that what's behind it is not only that these Miracle Classes are to assist each of us in preparing ourselves for 2012, but also that behind this that Akasha is putting in the ingredients for what she has shared with us is an absolutely new healing modality that has the most essential of the Sacred Fire nutrients within it, and I feel that this is behind this, she's mixing that as she prepares to present that to us some day. Continuing,

I AM the All Christ Consciousness that goes out before me and perfects all things (x3) Almighty I AM (x3)

I AM the Resurrection and the Life of the powers of nature and the forces of the elements (x3) Almighty I AM (x3)

I AM the Resurrection and the Life of planet Earth, all her kingdoms and atmosphere (x3)
Almighty I AM (x3)” Deep breath.

And before we decree the last three let us remember that one of the great gifts of the Radiant Rose Conclave coming up next week in Edmonton is the gift given by Beloved Ascended Master El Morya who comes to us as King Arthur and there he raises the electronic pattern of the Sword Excalibur from out of the Golden Unfed Flame within. Once this is done for the student body attending conclave we are told that in the 28 days after conclave that Akasha will come to all the students around the world who could not attend conclave where she will then draw forth that electronic pattern within each one and that electronic pattern forms the shape of the Sword Excalibur, it rises up from the Golden Unfed Flame and seeks expression through the throat centre and the vocal cords, and won't that give us voice, indeed. And so just be conscious of that wonderful gift that is coming. And, take a deep breath and together....

I AM Excalibur, my Unfed Flame's Presence and Power of the spoken word (x3)”

Deep breath. And let's say that again but after 'power' let's say 'of the voice' because its not just about the spoken word it's in all usage of our voice, the healing voice, the music voice, it's all forms of voice, so let's do that three times, 'power of the voice,' alright, together,

I AM Excalibur my Unfed Flame's Presence and Power of the voice (x3) Almighty I AM (x3)

I AM the fulfilling command of Love's Eternal Presence now and forever (x3) Almighty I AM (x3)

I AM Akasha's Love, Will and Grace of the Rose Pink Flames pouring in through and around me (x3) Almighty I AM. (x3)

Deep breath, and turning inwards and placing your attention upon those three Great God Flames, the three Unfed Flames within, pink, gold, and blue, Love Wisdom and Power, and visualize the Golden Sun's Presence that comes out from those three Sacred Flames that fills the chest cavity and imagine that Golden Sun's Presence expanding, releasing its All Christ Activity and Blessings through our minds, our feelings, our physical garments, making each of us a Golden Sun's Presence, a healing and raising and blessed activity to all life on Earth. Visualize and feel it.

And our Beloved Mighty I AM Presence as you take up our calls to the Great Ones so too through you do we offer up our love to our beloved Akasha and Asun and their dispensation to the Earth of the Rose Pink Flames of the Divine Mother's Presence of Love Will and Grace. As

you come to us this day, Akasha, we call upon you to anchor those Rose Pink Flames deep into our feeling side of life and shower us with the Great Rose Pink Ray of your Love.

And through you our Beloved Presence we greet the great beings who direct the Violet Flames to the Earth, Beloved Saint Germain, Angels of the Violet Flame, God and Goddess of Purity, Elohim of Purity, Elohim Arcturus, Archangel Zadkiel ruler of the Violet Planet and to all these glorious being and more who direct the Violet Flames to the Earth we love you and bless you, we are so grateful for the knowledge of the Sacred Fire and we call upon you to blaze up in through and around us the great pillar of the Violet Consuming Flames that just loves to consume all discord, fear, and the mass consciousness of the tree of knowledge of good and evil, to clear that from our beings and worlds. We love and bless the Violet Flames. We call upon our Higher Christ Self to sustain and expand the pillar of Violet Flame Love, Peace and Purity through our feelings, our minds, our bodies, our beings and worlds, our homes and all our outer activities, and to all our loved ones each and every day. We love and bless the Violet Flames." Visualize and feel them.

"Our Beloved I AM Presence we call to you and the Great Ascended Host for the great gift of the Tube of Light of Eternal Protection as we call upon you now enfold us now in your Mighty Magic Tube of Ascended Masters' Light Substance drawn down and around us and below us; seal us in thy Great Cosmic Armour of Light that makes us invisible, invincible, invulnerable to the discord in the outer world, a Tube of Light enfolding us that makes us more sensitive to Thy Golden Voice that speaks through our heart each day; we thank you." Visualize and feel the Great Tube of Light enfolding you and the Violet Flames.

Our Beloved I AM through you we extend our love to the Great Archangel Michael, Ascended Master Elect of 2010. Oh Beloved Michael we call to you and your uncountable legions of the Angels of the Cosmic Christ Blue Flames. Oh Beloved Michael we call forth such wondrous manifestations of your Sacred Fire Presence everywhere upon the Earth that brings it into outer manifestation, that forces the mass of the people to see that Sacred Fire and awaken by it.

And now Michael we call forth that extra protection that you offer anyone who turns to you and so we call upon you Beloved Archangel, outside of our Tube of Light sustain and maintain a wall of Cosmic Christ Blue Flames as added protection until we are free in the Resurrection and the Ascension, and we thank you." Deep breath everyone.

And now in preparation for the great love of our Beloved Akasha and her special guest the Lord Maitreya into this Miracle Class, do we welcome the Presence of Angels. Oh Beloved Angels come, our Guardian Angels, the Healing Angels, Akasha's Angels of the Rose Pink Flames,

Angels of the Sacred Fire, the Great Seraphim the Light Angels, the Cherubim the Love Angels, Angels of the Music of the Higher Spheres and the Great Central Sun's Angels of the Immortal Flames of Cosmic Christ Love. Oh blessed Angels come, we love you and bless you and we thank you for your great service to Life; we offer the love of our own heart's flame to you and we call upon our minds, the cells of our physical garments and feeling side of life and our being and world, to open to receive the great outpouring of the Great Angels Heart's Gift to Life, and we are truly grateful and blessed."

And so together let us hold the silence now in anticipation of Akasha's Presence and her special guest this Miracle Class, the Lord Maitreya. Deep breath.

Akasha:

And let us take a deep breath together....and when you are comfortable return your attention into the outer room. God bless you dear hearts; I am Akasha and I greet you upon the Great Love Ray as I pass that through the messenger's vocal cords and I thank each of you for your presence here today.

Oh beloved hearts there is a new joy that is growing within the hearts of all the Ascended Host as we all watch the affairs of human kind. We've always had joy for our own lives, for the universe; for all that Life gives us, and all the perfection we have loved to come to create. Long it has been that any of us in the Ascended Realms have had any joy for what is going on upon this Earth. For centuries and centuries and centuries all of the Ascended Host have watched the evil the desecration and the destruction of all the magnificence of life that was created upon this Earth. We have watched life streams lose their embodiment through war, through hatred, we have watched the scattering of the human race worsen, we have watched the spell the belief in two powers worsen by the very teaching of the religions of this world which ought to have been that which was an open door in which these sacred organizations, could have, could have yet failed to teach humankind the Divine Way of living life.

And so I return to you this Miracle Class and I am truly grateful. And let me get something correct in your understanding; I did not invite the Lord Maitreya to this class.

Lord Maitreya knocked on my door and asked if I would consider him coming forth and addressing you precious hearts, and all of you around the world who are listening to these recordings, to address you before the conclave's address next Saturday. And of course you have heard the Great Lord Maitreya is one of the great beings dear heart who has been, you know, teaching humankind; he is a teacher of teachers and what you have perhaps not also known is that he is also one of those who are the Great Golden Avatars from the Great Central Sun, yes? There with Surya and the Mighty Victory and none of us are so courageous that we would ask these ones to serve, for they serve where they so desire. And so it is a great joy in my heart to host the Lord Maitreya that he may offer you today into your

awareness that which he feels important in light of his gift that he brings to conclave next weekend, yes?

As the Chohan of the Central Sun dear hearts you have come to realize that many of us in the Ascended Realms that we have many areas that we focus, that we hold a concentration, we have varied duties and there are some of us that have different roles that we fulfill, and the Great Hierarchy of the Ascended Master Dimensions, Realms, and in the Great Stars, the Great Suns where there are some of us who play a critical role in the Great Central Suns as well. You know dear hearts since I am the Will of the Resurrection Flame I remind you that this Miracle Class has been dedicated, this monthly coming together has been dedicated in all ways that we feel that we can assist you in preparing you to be strong enough and to do your part in your outer world when the year 2012 comes to assist in the balancing of your Earth, to assist in the purification of its atmosphere and its kingdoms so that as your Earth makes a historical shift upon its axis which opens the way for many doors into the mystical and secret doors into the centre of the Earth where great activities that are performed by Great Masters in the inner strata of your Earth where you know as the Lord Maitreya will probably speak into tonight that just as your atmospheres are filled with strata and so is space which means layers, so too is your Earth filled with many layers of substance and energy and fluids and rock substance etc. yes?

And so it is in the important changes that are coming in 2012 that we seek to assist all of you that you may give such great assistance and also that with the great conclaves to assist each of you in the great journey that comes ahead, the journey of Resurrection, the journey of becoming your true nature on this Earth. And it is with great joy in my heart that I say to you for the very first time since twelve and a half million years, since before the end of the Second Golden Age, there are those of us who have come from the Ascended Realms who are working in certain areas inside your planet where we are forming some new and mighty Unfed Flames that are qualified for the days ahead. Myself, the Ascended Jesus Christ, and the Mighty Victory, the Great Saint Germain, my sister Rose and others have gathered below the Arabian retreat which is the retreat of Jesus the Christ when he visits the Earth, and there as the Will of Perfection's Flame, the Will of the Resurrection Flame we are creating a mighty new flame.

Now when a new Flame of Life is created dear heart try to remember that the Unfed Flames are the Great Heart Flames; these are the flames that are drawn from the heart of the I AM Presence, the heart of an Angel, the heart of an Ascended Being, the heart of Physical Suns and Great Central Suns, and when you draw forth from the very heart of some great source you are drawing forth Source itself. So when you hear the terms, "Unfed Flames," "Heart Flames" ultimately they mean the same thing. And so when we draw forth a Great Unfed Flame, a great heart flame, and then Ascended Masters come to pour their specialized gifts, and since the Ascended Jesus Christ is the Resurrection and the Life *and* the Ascension, and since I Akasha am the Will of the Great Ascension Flame am I joining with him to be and to offer my Will into this Resurrection Flame that we are creating. And so too are others including the Mighty Victory and Beloved Saint Germain, a number of Ascended Beings who have a great gift and focus who are pouring forth their Heart Flame's Gift to Life.

And to give you an example you have had the Great Tall Master Beloved Mighty Victory, you have had him address you a number of times dear heart. He has offered you his own Heart Flame of

Victory, he has offered you his own Heart Flame the Great Cosmic Christ Golden Blue Flame of his Love, so when he comes and we have created this Mighty Unfed Flame and a magnificent crystal cup, and the Ascended Masters who have been invited come one at a time and they stand before that Mighty Resurrection Flame that we are building and they pour into that Resurrection Flame their own Great Ascended Master Gifts to Life so that when this flame will be handed to you dear hearts, and this is going to be one of the great gifts of the Diamond Heart Conclave in Montreal, then there will be one of us who will present this new Resurrection Flame.

And this Resurrection Flame, the whole base and foundation of it will be the Will of the Mother's Love, the Will of the Rose Pink Flame that will be held in the base of this Flame as the most precious priceless pearl, pink pearl, the Mother's Pearl that I have projected into the base of this new flame that is being prepared for you. This flame when it is finished will be offered to you dear heart, it will be offered to you with decree, it will be offered you with mantra and it is my intention that this Flame as it is offered in the Diamond Heart Conclave, and as each of you draw it forth and allow it to be absorbed into your beings and worlds, and as I study the impact upon this new great Resurrection Flame will this also give me more of the understanding that I require from your human octave in that which is the building of the new healing modality that I have promised to come forth through my dispensation that will be the most potent healing modality, the Source of Miracles Profound, that has come to this world since the Ascended Jesus Christ used the miracle powers of his own I AM Presence to draw forth the record of miracles that belong to his great activity.

And so dear hearts there is so much joy in my heart; the numbers may be small of the almost seven billion that are upon the Earth, the numbers yet may be small who know of the Great I AM Presence, who know of the Ascended and Angelic Host and perhaps most importantly who know and have come to understand the Sacred Fire and the use of it. Those numbers may be small, they only may be a few million yet I say to you dear hearts you have seen in recent history how one Christ Being has affected your planet, and we will see what thousands and tens of thousands and then hundreds of thousands and a few million Christ Beings upon this Earth, how they will affect this planet. And we already know that the affect will be universal, that the future Christ Beings that walk upon the Earth will be in every walk of life, they will be in the arts, they will be in the sciences, they will be in corporate life and for heaven sakes they'll be in government. (Laughter) and maybe that will bring some good changes and constructive changes.

And so dear hearts those of us, and I say to you long have I meditated upon sharing my real identity with all of you and I have always chosen that there would be those who perhaps their Presence known by some of you longer than my Presence has been known, and I have often sought the discernment as to whether to release some information to you, whether it ought to come from me or whether it ought to come from one who human kind have at least remembered a little longer than they have remembered me. The hatred against the feminine side of life, the hatred against love, the hatred against feelings, the hatred against the Mother side of God has been so strong upon this planet. It removed the Goddess of Light, it removed the Goddess of Purity and my Presence is not even spoken of in most of the religions of the world.

And yet I say to you because of who he is that comes tonight, I will say one thing to you; you have heard a term and that term is, "The Silent Watcher," and I now bring to your attention in light of

the Great Camelot Conclave which too is to open the way for the restoration of sacred orders that have been upon this planet. I wish you to understand that there is another Sacred Order and that He, the Lord Maitreya is a member of this Sacred Order, it is the Order of the Silent Watchers and it is that I offer you this evening the understanding that I Akasha am too one of those Silent Watchers, in fact, I head up the Sacred Order of the Eternal Rose of the Silent Watchers from out the Soul of our Universe. And as a Silent Watcher, dear heart long have I wanted that moment.

I remember the early days, the early days in Messenger Number One's awakening in which in the mid 1980's, well, 1984, that I had to hold my love back from him that if he then felt a fraction of my love that it would probably bring him to his knees and to tears and to a place of silent remorse that he might not ever come from, and so I had to hold all of that back. And just like you dear hearts who have been my daughters and my sons in my time in Delphi when I was upon the Earth was he, were both of the messengers my sons. And to come when I have watched for so long and yet could offer no love, I could offer no love as I watched what happened to him as Peter at the end of that life; I could offer no love as I watched again what took place in this life. And I could offer no love to any of you through the personal experiences you went through as children until you are ready, until you are ready, until the moment had come for you that would trigger your re-awakening again and that would allow the long plans of thousands of years to come into place.

And so I say to you dear hearts in those days in 1984 and 1985, as the messenger would prepare his garment for bedtime, it is there that he would hear me whispering my name, "Akasha, Akasha, Akasha," introducing the name and the vibration, the love vibration that is behind that name that brought about in four short years between 1984 and 1988 that which was, and of course many of you know in 1984 he had purchased a second restaurant at that time, and so in those four years such a concentration of the messenger meeting Asun and I and making sure that by 1988 that restaurant was sold so that we could move his life in the direction that he had chosen and that we had asked him long ago to fulfill.

We are moving into precious days, we are now less than two years to May 26, 2012. In 1984 when I started whispering to the messenger my name in four years, and he did not have the Sacred Fire at that time or I could have done it perhaps in four months, but in four years his life absolutely turned around in a whole new direction. And I say to you precious hearts in the four months that is ahead of you, in June, in July, in August, and in September, if you would invite me to whisper to you that you could hear me whispering my name. It is not about my name, it is what my name means, it is Pure Love, it is the Love of the Mother's Presence that fills this universe and if you would open the space, hold that Sacred Space within yourself, for I Akasha to come to you and whisper in the same way that I did to the messenger.

I say to you this will open your life for the kind of profound changes and the beginning of the new journey that is coming this autumn for all of you. And I know there are those including myself that have shared with you the joy we have that you are actually ahead of time in terms of completing your awakening and beginning the great journey of Resurrection, beginning the great journey of becoming your One True Self I AM upon this Earth.

The great gifts of conclave have become everything and more of what I had hoped for and all that we build and seek in our octaves we don't have the vibration of hope any more, we have absolute

certainty, and we can create with such love and joy and perfection. And yet in your world hope is still a very powerful vibration and it is one that I fuel with the Will of my heart that there will be greater hope and greater faith and greater charity amongst the heart of all humankind to rise up and to be free of the evils, the discord, the belief in two powers, and to greet the One Great Presence of Life that gives us all life. And I say to you these blessed words, these blessed activities, Hope, Faith and Charity, they are dear hearts not only great activities of Life, they are three Great Goddesses and they are three Great Goddesses that I am calling upon to shower each of you, to shower each of you for the great blessings and activity that come to you in the Ascending Heart's Conclave in November of which you do not even know yet what that focus is.

Yet you do understand, and I would encourage you dear hearts go back over the newsletters, go back over the programs of the previous conclaves, see the gifts that were given, Ascending Heart's Conclave '09, Resurrection Conclave 2010, Radiant Rose Conclave 2010, Diamond Heart Conclave 2010. Contemplate, remind yourself of the gifts that have been given, welcome the expansion of these gifts for they are all given to assist you to complete your awakening and to begin the great journey of becoming the I AM Presence upon the Earth, and, being so strengthened and so prepared for the year 2012.

And so it is even though yet I offer not the theme for the Ascending Hearts Conclave I wish you to know that I am calling upon the three Great Goddesses Faith Hope and Charity to come to all of you and I ask you to remember them, and I ask them to shower you with their Love that has their great qualities. And I will say this dear heart; when you have gained a greater understanding that the Ascended Host stood with Saint Germain in writing the constitution of America, when it was the Master Saint Germain who gave them strength, when the Fathers of Confederation and their hands shook with such fear in signing the Declaration of Independence, what you did not know as Saint Germain stood upon that balcony and said to the gentlemen of whom fear was almost overwhelming them and he said, "Sign the document gentlemen," did he have with them the Three Great Goddesses who poured their Love constantly during the writing of the constitution of America.

And that is why dear heart it is a God constitution and that is why for all who have cared to study it, there they will always find hope, they will always find faith, and they will always find charity, for it is these that open the way to liberty and freedom. And it is this, our realms, our dimensions, they are not split up like what you have done to the surface of your planet; countries, cultures, societies, many of which hate each other and foster war. In the Great Realms above it is just a great continuity of Life in which is celebrated by magnificent Cities of Light.

And so I say to you dear hearts for I Akasha there is such great joy in my heart for you have clearly by the decisions made before coming into this embodiment, by remembering that there was a path that you had come to walk and live, that you could so one day be raised and so that then you could offer the greater service that is so required upon this Earth to free all human kind, do I say it is very clear to us that you have created and people like you around the Earth, that you have created an open door in which your own Beloved Presence, the Angels and the Ascended Ones through you can come into your outer world and offer the greater help that is so needed at this time.

I love you my dear hearts with the Eternal Rose of my heart and soul, and will never fail to respond to any of you. When it comes to the Great Light, the Love, when you have the Sacred Fire,

there is never too much. The Sacred Fire will always be your guardian, and so never fail dear hearts to rise and receive through your call the Love of my Rose Pink Flames to Life.

He is here, he is ready to address you and will you not open your hearts to the great love to the Great Presence of this Mighty Avatar and one who too is a member of the Sacred Order of the Silent Watchers. God bless you dear hearts.

Lord Maitreya:

(Musical interlude) And beloved of Akasha and Asun's Family of the Eternal Rose, I am Maitreya and I am truly grateful to your Blessed Mother who has opened the way for my Presence and the offering of my gift to you this day that I seek to set forth in preparation for the greater gift I wish to offer at the Radiant Rose Conclave in your nation Canada. It is nice to see you (Nice to see you!) and I see that your Beloved Mother has already let you know that I indeed am a member of the Silent Watchers who have watched the people of Earth and who watch all things in this universe, for I assure you with a single eye we can look through a 144 and we can watch many things simultaneously.

Now respectfully, your planet has entered into the Great Violet Ray Age and therefore none of you have authority nor do your Earth's Ascended Masters, nor does Venus have authority to go beyond that which is the seven great rays that are governing your planet until you elevate yourselves and your planet to the higher vibrations of life that sent you forth into manifestation and creation. And since I've created many temporary homes upon your planet because your planet has been very curious to me and that I in my sane mind have seen that you have no way out of the insanity that you find yourselves in without as much intervention as possible. And since your planet is not my home, since the Central Home is my home, and the authority that is mine as one of the Avatars, another secret order of the Central Sun's authority.

I say to you for those of you who have had the knowledge of the Sacred Fire and begun to use it then I say to you it is about time so that you can use it, you can understand it, and you can draw it forth, and what I am speaking of is the Great Crystal Ray. You know of its great flame but none of the Ascended Masters of your Earth have had the authority to take you beyond the Violet Ray that has come in since 1930 to draw your planet over this ten thousand year period back into the Garden of Eden that she was in the beginning, and to raise human kind into its great Resurrection and back into the original divine design and plan that sent you all forth to your planet some time ago.

Now because of my authority I *can* speak to you of the Crystal Ray and I wish you to understand some things, because I as a Silent Watcher and Avatar of the Central Sun, I have stood and watched what does not amuse me. I have stood and watched four great levels of Ascended Beings, the Archangels, the Chohans, the Great Elohim, and the Goddesses. I have watched these four great focuses of your Spiritual Hierarchy, and a fifth, the Kumaras who come in from Venus, I have watched these five groups... and when you hear the word, 'uncountable legions,' you'd better know there is no number, you are in infinity if you try to count the uncountable legions of Angels that come under these five hierarchies, the Chohans, the Goddesses, the Archangels, the Great Elohim and your visiting friends from Venus the Great Kumaras.

And I for one, as Maitreya, I have watched, I have watched your Ascended Masters produce so many miracles, I have watched the Blessed Mary the mother of Christ produce so many millions of miracles, and I am the one who did say they do not deserve them. Now I will not stand back from any revelation because of who I am, that it is I that said "Why do you do this, they will just go back to their own way, and I have proven it over and over, you waste your time." And of course we know as Ascended Beings that the Ascended Masters of your world that they have the right to study the All Seeing Eye of God, they have the right to ask the question, "What *will* work. If we continue to provide healings and miracles and miracles and miracles, what will work?" My goodness sakes, good people, it is within *days* of Christ performing miracles that they turned their hatred upon them, and do not tell me that human beings do not deserve because as far as I am concerned they are so quick to turn heart into stone.

Yet it is your blessed Mary who studied the All Seeing Eye of God and saw the opportunity that the Ascended Masters that belong to your hierarchy that live in your higher stratospheres could offer their consciousness, the Ascended Masters Consciousness. She had studied the heart of God looking and looking and looking and found a way that if you could understand the Ascended Masters' Consciousness, if you would set aside the time and welcome that, that that could bleed into your own consciousness that your own consciousness would begin to absorb it and hereby be influenced by it.

And yet it is the wisdom of the Prince of Venus, it is the wisdom of Sanat Kumara who has worked with some of the elder souls of the human race yet unascended amongst which all of you are part of that saw the wisdom to bring forth to the Earth that which was the Light, the Purity, and the Love so that next time human beings turned within or looked up for once and asked for a miracle intervention, this time the miracle wouldn't be a waste of time. And of course I provoked many of your Earth's Ascended Masters. Remember, I am not from your Earth, I visit the fifth and greater dimension often. I am from the Central Sun and of course I provoked them deliberately when I said "They do not deserve the miracles you offer them, because after awhile they will forget, they will not appreciate and they will go right back to their old ways." And it's exactly what had happened and what has always happened.

And yet I knew because I had been watching, I'd been watching Sanat Kumara's work with all of you, watched the Divine Plan that unfolded, watched the discernment of the Infinite I AM Presence effect upon all of you, and watched the great recognition that what you required was that the three holiest flames of God that which is the Light, and the Love, that which is the Will and the Purity would come to the Earth. And so indeed in all the divine plans do you now have the Great Beings of the Sacred Fire, you have the Mighty Saint Germain and others who are giving the Sacred Fire, and for once the memory, the ether is being cleansed because we have watched and I have watched and I've watched the terrible effects of human life be healed, I've even watched the cause of people's illnesses, people's evils and its ramifications upon their lives, I've even watched *this* be healed.

But human beings have lost absolute contact with themselves and have no recognition of the lower bodies that they live within that is a mental, emotional, physical and etheric. It is the ether, it is the ether that is the memory, it is the ether that is the record keeper and as long as the record has been there, well, you've always had the power of attention and if someone convinces you to look back in the past and see what's there and you say, "Oh look at this, look at the hatred, look at the wars," and

as you look at this and that record and that ether jumps back inside you, if there is fear enough, begins to act itself out.

And so dear hearts the day has been saved because of the Sacred Fire, the day has been saved because your Ascended Masters never gave up on you and when I provoked them, “Why do you provide them miracles? Why do you produce so much miracles, why are you going down to the Earth, Michael? Why do you purify the atmosphere?” Well, so that they have a chance to live, to breathe, to survive and perhaps one day they will have a change of mind, perhaps their suffering will be so great. Hmmm, I suppose it is wisdom, Michael.

It is always wisdom to use the Sacred Fire, dear hearts. Now I wish to give you a greater understanding; *all* the fire element is drawn from the light rays and the light rays are drawn from the fire element. It is the light ray that can carry a concentrated action of the Unfed Flame and can burst it into expression with the quality it wish to be. The Great Rays that deliver the Sacred Fire throughout the cosmos, the Great Ray that the Angels of the Sacred Fire draw that Sacred Fire from is the Great Crystal Ray and I wish you to understand dear heart how close. This is what all of you in your own personal experience, in your experiencing of understanding of the bigger things in life, you are all going to come to the same conclusion as you complete your awakening and begin to take up and use the Greater Powers of Life, you are all going to realize it was all here, it was all here, there to reach up.

Time and space has confused your mind so that if I say to you that in the inner activity of Life there is the most magnificent strata, the most magnificent stratospheres, layers upon layers upon layers of Light Beings of which the Sacred Fire is drawn. Now, the idiots that drill holes in your planet and with modern technology have at least provided you with an understanding taking pictures inside the Earth. And you know today that your Earth is made up of many layers and crusts; I could say that it is made up of strata. Strata is composed of energy, substance and consciousness, the consciousness given to it and the consciousness out of which that energy and substance acts according to its purpose.

And so as you have lots of strata, as you have lots of layers of energy, substance and consciousness inside your planet all the way to the core. Then at the core you have that which sustains the strata of the Earth and moves in divine relationship with the core of the solar system your planet is a part of. And so as your planet is made up of several levels or strata I ask you to go with me on this word ‘strata’ because I’m going to teach you a thing; when Maitreya teaches you a thing you will get it and I hope I will inspire you to use it, that’s why the explanation.

So with all the levels the strata of Earth, of energy substance and consciousness that comprises the inner Earth, the inner planet, when you get to the centre of the planet you have the core. At that core is that which is a Glorious Sun’s Presence without the star. Now in an afternoon you can look up and you have beautiful sunshine, you have a Golden Sun’s Presence that fills your afternoon and you can see the star, your Physical Sun that that sunshine comes from yes? Indeed. Well when you get to the centre of the Earth, when you’ve passed through all the strata and you’re at the centre of the Earth you are standing in an essential timeless space-less field of what your Masters, inventors call the Sun of Even Pressure. It is sunshine that is channelled through the important gates of the equator of your planet in which that sunshine travels through the strata, collecting important energy substance and consciousness of each layer of each level, comprising that, taking it on so that when it gets to what you may understand as the hollow Earth, the centre of the Earth, it is then that these natural systems,

natural conduits feed the Sun of Even Pressure or your sunshine into the hollow Earth, and that by the time it has passed through all the strata fields has taken on the energy, the substance and the consciousness of your planet, alright?

Now let's get up to the surface. You have your atmosphere and then you have a word that you have heard from your Ascended Masters, and that is The Inner Activity of Life out of which the outer activity comes forth. And so you have the outer activity of space, atmosphere, that which is – now this is a little tricky – that which is *within* your space and beyond, that which is *within* your atmosphere and beyond is strata, layers of energy, substance and consciousness. These layers are put into place by the Great Crystal Ray.

When a planet is carried to a solar system, placed on its axis, spun by the Great Ones and set into symmetry and dance with its other planets, the inner activity is already there before the planet arrives. No planet is formed in its solar system it belongs to; planets are formed and created in Creator Galaxies. You know two of them; the great Orion, and the great Arcturian systems of worlds, tremendous galaxies where planets, suns, stars, are created, and then, well, up there they don't have to use cranes and large trucks and rigs and steel and machines to drag these suns and planets across the universe, they use tremendous light beams and position the planets and suns upon these light beams that then pass them through the universe to those sectors and solar system where there is that sun that is buying a planet or two. Well I'm just having fun with that one, there is no buying and purchase when it comes to the universe, it is all a great joy of life.

The point I'm trying to say is that before your planet was placed into orbit the inner activity of your planet was in place, a stratosphere, a stratosphere of light, of rays. Now, when the planet was placed into orbit the inner strata, the inner crusts, the inner layers were all formed, hollow Earth. Now no planet has the surface finished until it is placed into orbit in the system of worlds it is to be a part of in which the powers of nature, the forces of the elements, the kingdoms of life, the intelligent beings that shall live upon that planet they must all be in some kind of a relative association. In other words you will not find on Venus, on Mars, you will not find vegetation, an intelligent species that are so out of the world to you. You will find beautiful beings that look relatively the same as you, you will find vegetation, canyons, lakes, oceans, seas, that wouldn't be shocking to you, there would be different designs, different colours, yes? So what is on the surface of the planet is added after the planet is placed into orbit around the sun that it is to become a family member of. Are we good? (Yes) Good.

Now the stratosphere in the universal space that inner activity is already there and it is an activity that opens itself, receives the planet, and then closes in and around forming a strata of light realms. The first inner activity of those light realms is that which the Angels draw forth, these light realms are made of crystal rays. It is these that the Angels draw forth the Cosmic Christ Blue Lightening Purity Fire to now start creating the surface of the planet as designed by those who are coming. Oceans, how much oceans? Forests, how many forests? Plains, how much plains? Trees, how many trees? Flowers, what kind of flowers? Hills and dales, what kind, how tall, how deep? As the Great Architects of Planets draw up the designs who do they turn to? The Angels.

At this point let me be clear of my gift tonight to get you to appreciate, to get you to love more the Angels of the Sacred Fire, because once a planet is in form and around it is the strata which is layers of Light layers of realms all made up of the Crystal Ray, in these Crystal Rays, in the strata around the

planet do the Angels start drawing forth the Cosmic Christ Blue Lightening Fire to build oceans, the powers of nature, the forces of the elements. They used it to produce creation upon your Earth, the Angels of the Sacred Fire draw from the upper strata of the Earth's inner activity which is made up of great crystal light rays, draw forth that Cosmic Christ Blue Lightening Flame and Fire to produce creation, the powers of nature, the forces of the elements and kingdoms of life upon the Earth.

It is only that your planet is in such devastating dire that as you gain the knowledge of the Sacred Fire beyond your own Mighty God Flames that you've come to love, that you may address and avail the hierarchy of those flames within the garment you have chosen, the mind you express and the Mother's Heart that you use. Beyond that everything that has come to you in the use of the Sacred Fire has been to gain an understanding that you can use the Sacred Fire to heal the ills of humankind and remove the foul smells and the hatred and the wars of the destructive side of human life, so most of what you have discovered around the Sacred Fire is the purifying, the correcting, the healing, and that is fine and that is wonderful.

My purpose and with what I have in mind next week in my gift is to offer you a deeper understanding of the tremendous work of Angels you cannot count. There are other great hierarchal systems my dear hearts, there is not just the Elohim and the Archangels and the Goddesses and the Chohans, oh my goodness it would be a small boring universe if we only had four great hierarchal types of beings. It is endless! But just with these four you cannot count, I'm not saying counting the Angels, I'm saying you cannot count the uncountable trillions of legions of Angels, and I hear you know how many are in a legion, a 144 thousand.

So tonight to get you all ready is to deepen your relationship with the Angels and to understand dear hearts it is not that your Angels are called back to your world because there is nothing, and you know now there is nothing; if humans are left to their own upon the planet the planet fails. Humans become extinct, the planet is destroyed and all life in this solar system sector and galaxy is influenced negatively for eons of time into the future. Well who's going to let *that* happen, no one! But my point I make clear that humans do not get themselves out of the mess they have found themselves in. You show me, one human being that has controlled the use of nuclear weapons when they've already fired two and lost twenty-three. Good thing your Earth's Ascended Masters know where they are.

So all I'm saying dear hearts you know, your Beloved Mother Akasha has a great joy in her heart and I have only seen her weep when it comes to the people of this Earth and what has happened on this planet. You know not who she really is, yet when it comes to her turning her attention to this planet she has never had a joy in her heart, she has always wept for her children, and I say to you to see the joy in Mother Akasha's heart for the open door in which your hearts and minds are opening was so much unified and Light and Love, and see the acceptance in your being of the Great Creator Angels, and the Ascended Host. She knows because who could stop her, who could stop Akasha looking into the Father's Mind, into the All Seeing Eye of God? No one, no one could stop her from looking in to the Mind of God and the All Seeing Eye and knowing as your Earth's Ascended Masters and I know, the human race makes it; the planet makes it and makes it because of people like you my dear hearts. And yet for me it is not enough. I chose because I know how I could help. When I was watching the elders of the human race and the Mighty Sanat Kumara conclude with the All Seeing Eye of God that they shall

call upon a number of Great Flames of God Source that have individualized, and they will call the Christ Flame to the Earth as a being, they will call the Great Alchemist Flame, the Violet Flame as a Being. And knowing that her Love was too great to turn down they would call the Mother's Presence to the Earth as a Flame.

And so I say to you, you ought know more and your knowing more ought to create a greater care, because when you realize your Angels are not just there; yes you need them now, you need them to restore yourselves to the Glorious Beings your Mother/Father made you to be. Yes you need them to heal your planet of the evils and the hatred and the wars that is here. But blessed hearts that was not what the Angels were created for, they were created to draw forth the great beams of light from Source, from the Infinite I AM Presence, from the Central Sun, to draw rays and beams across the cosmos, from out of Physical Suns, the creation of planets and then create stratospheres around planets out of which creation could come forth.

The Angels dear hearts created what you call Mother Nature and they did it using the Sacred Fire. Right out there you cannot see it, I can see it and there I just made his sight work so that he could see for a few moments the electronic energy that is beyond the atomic. This is the wonderful news at the end of the day that you discover what the prophet told you, "Closer than breathing and nearer than hands and feel, I AM." What is I AM dear hearts? I AM is everything, I AM is Life, I AM is the Sacred Fire, I AM is mind, I AM is heart, I AM is beauty, I AM is manifestation. Right here, right here in your atmosphere and beyond is your Earth's strata and your Earth's stratospheres is made up of the Crystal Rays, and when the fire is drawn from the Crystal Rays it is drawn forth as great sheets of Cosmic Christ Blue Lightening, and it is here that the designs of the architects of planets come forth, the great kingdoms of Life are produced.

My hope was that you might understand that the Angels of the Sacred Fire, yes, you need them, yes your hour is late and you know them because of what they can do for your world. But it was not their original purpose; the Angels and the Crystal Rays, the stratospheres around every planet is there to create creation, the powers of nature, and as you are raised into Glorious God Beings, Christ Beings, you would then start working along *with* the Angels in creating amazing new energy systems, safe systems for your planet. Well the day is yet in your understanding in time; it is yet a far stretch of time before that happens.

But I say to you my little discourse this evening has been to encourage each of you, go past, throw out, clear yourself of ideas of long distance of space. Everything is here, everything is all around you. I just touched the Crystal Ray, right here. The stratospheres are within and beyond your atmosphere and so with this understanding the hatred that is producing, it is hatred amongst the peoples amongst cultures, it is selfishness that produces the crime in your cities, the addictions, the terrible things that people put in your body. It is selfishness that produces that, it is the hatred that produces the wars upon your planet.

I have stood in many a conference room where leaders have tried to sit across tables and hammer out a peace deal, and I've just shook my head and said to myself, "How long, how long will this last?" Because until the evil is purified, until the hatred is removed from this world, there is no end to the wars, yet I say to you what a powerful difference. I will know, I Maitreya will know whether my sharing this evening furthers your thirst to understand and *use*, because I say this; my words are short

with you because of your allocated time. But I could speak for a thousand days on the nature of the Angels of the Sacred Fire in which you would just love; you would just *love* to stop almost every hour. How do you do it, how do you do it? I do not know how you do it. I have been ascended far too long. (Laughter) I do not know how you do it; I do not know how you walk past the discord and the evil that is upon your planet. I do not even know how you sleep at night with the crimes and the children that are starving, crime and starvation. I know you *have* to sleep, I know you do, and I know that if you forgo your own life to try and help them then you're not really helping them.

And I'm just trying to make a point dear heart. It's important that you have your sleep and all, and that you be at peace. It's important that you know you *can* make a difference. My point is to understand these Angels are not somewhere way off, they are waiting and they are working to some degree. If the Angels were not delivering the Cosmic Christ Blue Lightening Fire sheets from the Crystal Rays in the Earth's strata you would not be enjoying life as you do today, you would not see as your Ascended ones have said, you would not even see the sun at noonday, the discord, the pollution would be so bad, life on Earth might be, you might get 30 years in the body. Well that's not so because every day you have Angels that are drawing from the crystal stratosphere the Sacred Fire, the Cosmic Christ Blue Lightening Sheets, and then they project it.

Now I'd like you to know something dear heart about the Sacred Fire a little more. When the Angels send this out from the Crystal Ray and project that into the world and they project that into manifestations of evil and hatred, it is projected in a way that the hatred is withdrawn. That's what the Cosmic Christ Blue Lightening does, when it's projected *into* something whether it's an atmosphere or a lake that's been polluted, whatever it is, they project the Cosmic Christ Blue Lightening that withdraws the hatred the discord out of the thing that they have projected the Sacred Fire to. Once it is withdrawn, that hatred is withdrawn from the energy, then it is they send the Cosmic Blue Flame and the Violet Consuming Flame in to consume that hatred.

You see we don't like to consume energy because you know, to us every morsel and particle of energy is a trust of God's Love so when we work with the Sacred Fire there are so many Angels; first come the Angels and from the Crystal Stratosphere around your planet do they draw the Cosmic Christ Blue Lightening where they are called, or, where Life necessitates where the Divine Plan says in order that Life may continue they are allowed to withdraw a *portion* of the hatred so that Life does continue on this Earth until the Divine Plan is starting to move everything into action, you understand? So when that Cosmic Christ Blue Lightening Fire hits something it's withdrawing the hatred from the substance, the energy and the consciousness so that that thing or that being of that Mother Nature is now free. Then that hatred is caught in a ball or a sphere, and it is held there while the Angels of the Cosmic Blue Flame and the Angels of the Violet Flame drive the Sacred Fire in to consume it.

Now, you have, many have seen photographs of that which is the area of Mount Shasta and there are many who have photographed that which is a ball or a sphere of light. These balls and spheres have a double-edged focus to them; there are areas that are so sacred such as the Royal Tetons and Shasta, and that's just speaking of America, there are areas sacred in other parts of your planet in which these balls and spheres that you're starting to see when some students, their Light is so strong that that Light is passing through their photographic equipment and registering what they are filming. So you understand my words? (Yes)

Now, Shasta, the Tetons, the Cave of Light in India, the Lake Louise in Canada, Victoria Falls in Africa, and on and on, wonderful important sacred sites. What you don't know is that these areas have come under terrible psychic attack, they've come under attack from warring machines, they've come under attack from governments that are trying to get in because they've heard the rumours that these are sacred places and they've heard the talk that beings come and go. And so the silliness of your governments is that they put spies in there and they spray the areas with terrible chemicals thinking that they are going to somehow stop the activities of the Ascended Host, such silliness is it not? So what the Angels do is they're constantly cleansing, they're constantly striking the Cosmic Christ Blue Lightening into these areas, freeing the areas of hatred that's been projected there by the dark side or governments or the sinister force, then sealing it in these balls or spheres where then the Angels of the Cosmic Blue Flames come in and consume it.

Now, the other side of this is that then because the need is great and your Ascended Masters do not waste anything, so if hatred has been removed from something and caught in a sphere or ball of light where the Cosmic Blue Flame or Violet Flame is projected into it by another Angel, the hatred is consumed. Do you understand? Then the Angel drives, or rather let me back up, I'll give you even more clarity. Then the Angels of the Higher Orders of Life come in whether they be Cherubim or Seraphim, and as guided do they direct the Light, rays of Light, Love, into these spheres, into these balls that had been used to capture the hatred that had been taken from the energy substance and consciousness of a thing. Then the next order of Angels come in. If that density and hatred is so severe the Cosmic Christ Blue Flame comes in because whether you use the Cosmic Christ Blue Lightening or the Cosmic Christ Blue Flame there is always a shattering and to *some* degree there's a consuming. With the Violet Flame it is *always* a consuming. So you've got the actions of two very focused groups of Angels yes?

Then once that happens you have these spheres, you have these balls, and some of them are so small and some of them are quite large and they are holding that hatred, has been consumed and because the need for sacred energies, the need for spheres of great frequencies of Light and Love is so great upon your world so that its influence offers a radiation of its own to the area, that's when the Angels of the higher orders of some specialized quality or the Pure Light Angels or the Pure Love Angels are called in, and then they charge these spheres and balls with their great rays or qualities to Life to keep spreading the radiance. And then there are those who come to Shasta, there are those who go to the Royal Tetons or other sacred sites around the world and they can feel, they can feel how beautiful the Light is, hmmm?

Well I just might be interested to creating some because of who I am, to creating some spheres and balls of Light and Love and very important quality for each of you, as my gift this conclave, for the point of all of this dear heart is to realize your stratospheres of your planet. Now understand beyond the Crystal Rays that built the inner activity of your stratospheres it is that that is the foundation to the Ascended Master Realms, as your Earth is the foundation to your realm, hmmm?

So it is from this sharing that I am seeking to encourage each of you to realize not an hour has to go by that you could stop and call upon these Angels who direct the Cosmic Christ Blue Lightening from the Great Crystal Ray Strata right here in your atmosphere, right here in your atmosphere. Call upon those Angels who work with the strata, now that's the stratospheres, remember that's the levels of your atmosphere, the inner activity in which these strata and its substance energy and consciousness

is all of the Crystal Ray. It is the Crystal Ray that has the authority to carry and produce and project all manifestations of the Sacred Fire, because one particular manifestation is so vital for your Earth at this time.

My dear hearts how the Angels would produce such magnificent blessings in your life, you could not be short of anything; you could have a windfall of everything if you realized. Why are you waiting, are you not and people like you awakening around the world, are you not the chosen ones? Why are you waiting for your discipleship in Christ for, what are you waiting for your Resurrection when you can use your will, you can use your voice, you can hear these good news of what is so close to you and then you can talk to them, talk to them.

“Beloved Angels who draw forth the Sacred Fire Love from the Great Crystal Rays that make up the strata of this planet, I do call upon you legions and legions, uncountable legions to draw from the Great Crystal Rays your Cosmic Christ Blue Lightening Fire. Draw it into the lower atmosphere, pour it into the powers of nature, the forces of the elements, drive it into the kingdoms of Earth, drive it into the emotional bodies of human kind and seize all destructive energy, seize all hatred and selfishness, withdraw that from the emotional bodies, withdraw it from the powers of nature, withdraw it from the Earth’s atmosphere, seize all evil all hatred, all selfishness, all destruction, draw that forth out of the emotional bodies of the people, draw that forth out of the powers of nature that are suffering so much, and then Angels of the Violet Flame come in and consume that hatred, consume that discord.”

Dear heart do not hide your head; as long as there is one who would seek to destroy and kill another you have one seed of hatred upon your planet and as long as you have one seed of hatred you will never have the peace that the people of Earth ought to have by now. And so if I could get your focus to work with the Angels of the Crystal Ray of the strata of your Earth to draw forth the Cosmic Christ Blue Lightening Purity and drive it wherever there is hatred, wherever there is destruction, wherever there is selfishness, and pull that hatred, pull that selfishness, pull that destructiveness out of the person, out of Mother Nature, out of weather conditions, pull that hatred out and then Angels of the Cosmic Blue and Violet Flames drive the Sacred Fire Consuming Flames into that hatred and consume it and set this planet and all her kingdoms and the mass of the people, set them free of the hatred and sinister force that has plagued this planet.

Oh my goodness dear hearts if you looked at your watch and just set your mind; if there are people around you, you can set forth the call quietly through your heart flame, what this would do for your world. Quite often you do your calls and as you have discovered these higher powers you set them forth and you get all your Angels busy for about one, two minutes and then they have to wait for more will to come forth through your call. I say to you your planet and your people would be so blessed, you would be raised so quickly into your Resurrection because of the difference that you are making. The Angels would just crowd your lives with good health, would make sure that you had all the money and supply that you could ever require.

Have I made myself plain with you? (Yes) Now I love to teach these things. I taught Emanuel, I taught Will Shakespeare, I taught young Arthur and I taught Asun too. (Laughter) I love to teach and explain these things because I feel that when you have a better understanding this will lead through contemplation of your own insightfulness and hopefully that decision,

“I see, Maitreya, I will make more effort, I will pour my love to these Angels of the Sacred Fire. Now that I have a greater understanding that they even use the Sacred Fire for creation, to create these beauties that you enjoy in Mother Nature. Thank you Maitreya for the understanding.”

And I will take the time, I will try. Takes me no time, takes me just memory because I say to you dear hearts you would not have the time to count the blessings that would just come into your life, and all the protection you would have around all your loved ones, you’d never have to be concerned about taking some transportation and whether you are safe to use that transportation. If you are on an airplane that was suddenly going down the Angels themselves would catch that plane and fly it safely to its destination. That’s the way it is.

Do you feel this is valuable to you? (Yes) Hmmm, good; keep going dear hearts, remember who you are. As I drilled him, as I see Asun has shared with you and asked Emanuel “Tell me who you are,” well it will not be me, it is not my good fortune to come and be the master inquisitor to ask you to tell me who you are, but it is his authority, and mark my words he will come, he will come when he feels that you ought to know who you are by now and he will come, Christ will come. You might be sitting in a park, you might be sitting upon a bus, you might be in a meditation, you might be awakened from a dream, you might be sitting in your living rooms and suddenly you hear him in your mind and he will say, “Tell me who you are.” And I pray thee you shall have the good humility and the illumination and the courage to speak your highest truth. I will leave you with these words;

Find no interest in the human ego it has almost destroyed your lives again. It has destroyed humankind time after time after time. You are called to be bigger than life people, do not take the little things in this world that can so easily go wrong or be misunderstood, do not take these things personal. Make a vow with yourself for a great blend of good God humility, good God humbleness, good God gratitude, good God wisdom and good God courage, to have lots of that in your expressions and the human ego which has had its day for many lifetimes, well, it will be back doing what it’s supposed to do a long time ago and you know what that is.

I am Maitreya, forget me not. You know, this is why he said, “Call unto me,” that you would learn of these things, you would discover these things and that you would make the call so that you could be a bridge in which all the blessings of our universe that are closer than you’ve ever realized could be availed, could come forth into your outer lives. Bless you in the fullness of the Presence. Namaste Great Mother Akasha.

Now don’t you be going and judging Maitreya for calling a few human beings idiots because it is not a judgement when you know and when you can see and when you can see it is absolutely idiotic to

suck the lubrication of this planet which is the oil. Fortunate your planet can recreate it and fortunate there are new energy systems that are coming, but when you can see these things as we do and you can see the idiotic-ness of it all, then those that are performing such tasks that are idiotic *must* be idiots. And there is no judgement, I get no emotional charge, it is what it is, is what I love to say. Let your heart be filled with great joy.

*

God bless you dear hearts, Asun is with you for a few moments. Well, you know it is not the first time Maitreya's been with you, many times the Ascended Masters when they greet you hold back, they hold so much back in great respect. I say to you dear hearts when you consider the most remarkable transformation of these Miracle Classes since what, September last year when the shift came? That happened because of you dear hearts, you that turned out in the early phases of this Miracle Class. But I say to you hear my words well, my goodness you have in your world the social media internet things, Me Tube, You Tube, (laughter) Me Tube, maybe it should be Me Tube, and all these other things. My goodness if you my dear hearts just got these classes from September to now and you put up a U-Tube channel and you put these recordings of these Miracle Classes, put some nice pictures up there, I say to you, you would have so many thousands of people subscribing to this class alone, you would have the funds in one year to build your temple. (Applause) And that is all that I am allowed to say; we can only encourage so much. The messenger has known he only has so much time dear hearts and there are some precious students, there are precious students who are taking things and putting them up on U-Tube and they're doing this all on their own, and I say dear hearts this is just a beginning.

Akasha has put her foot down that there will be no proselytizing of this work; she will not tolerate massive advertising behind this work. She has said this work must stand on its own and be word of mouth. Well it seems to be that your social internet networking is word of mouth to me. (Yes) Well God bless you dear hearts, it was a good class yes? (Yes) You know dear hearts you got a good dose of Maitreya tonight (Yes we did) and even that he held back substantially. You've got these images I see it in the messenger's mind where in advertising in the old 1970's and 80's where there were stereo companies that were advertising their big boom box speakers and there was an individual sitting with long hair and the sound coming out of these speakers and the hair is just blown right back. Well dear heart if he just cranked it up a few decimals Maitreya he'd have your own hair just blowing right back. God bless you, namaste dear hearts.

We love and bless you Akasha, and Lord Maitreya, we are so grateful for your Presence, and much love to you Asun. And from out of our heart flames we call forth love and respect to each other. Deep breath everybody.
